Taxonomy Project IN THE YEAR 2525  
Humans, after hundreds of years of  
constant effort, have successfully  
polluted all bodies of water on Earth. As  
a result, almost all previously known  
species of plant, animal, and other life  
have become extinct. Through natural  
selection, genetic engineering, and  
selective breeding programs, a portion  
of the Earth has been successfully  
repopulated.
